Getting Started

What do I need for Armadillo to work?

Armadillo is designed for use with RapidWeaver, a web design application created by Realmac Software for Macintosh computers.

In order to for Armadillo to work correctly, the following requirements must be met:

On Your Mac

- RapidWeaver 5 or greater
- Stacks 2.5 or greater

On Your Hosting Account

- A web hosting account with PHP 5.2+ support
- One (1) MySQL database
