Armadillo Roadmap - What's next?

Here's a list of the features we plan on adding to Armadillo in future updates:

- Image-only content
- Galleries
- Import tool to bring in content from WordPress and Blogger
- 2-Factor Authentication
- Additional user roles
- Multiple blog support Done! v2.5
- Content "groups", so you can specify which content to display in a particular area. Think of this like "pinned" or "solo" content, which can be displayed anywhere on your RW site. Done! v2.0
- Responsive interface for the admin dashboard Done! v2.0
- Ability to search Done! and organize the Media Library
- Archiving Blog posts Done!
- Edit/Delete Categories and Tags Done!
- Dropbox integration (for backups) Done!
- Localizations Done!
- Tags/Categories for Posts Done!
- Editing the publish date for Posts Done!
- RSS feed for the Blog page Done!
- A preview option for Saved Drafts Done!
- Online backups Done!

This list will change over time as features are implemented. If you'd like to request a feature, please [email us](#).
